

## ARTIFICIAL GRASS INSTALLATION PLANNER

Thank you for downloading this artificial grass installation planner. In order to quote for an installation service, we need to know a few details about your lawn/patio/area. Please answer the questions below. If you think a sketch of the area would help, please use the grid below.

- What is the length and width of the lawn/patio/area at their longest points?
- What is the surface now? Natural grass, soil, concrete, timber decking, tarmac... etc
- What is your post code?
- Is there off-road parking for our vehicles and a skip if needed?
- Is there access to the installation area wide enough for a wheelbarrow?

You can either scan this sheet and email it back to us, or even just take a photo of it with your smartphone and email it that way. Our email address is [grass@towngrass.co.uk](mailto:grass@towngrass.co.uk). We look forward to receiving your request!
